PROTECT & RESTORE

PRODUCTS WE USE :

Gurtex anti-corrosion waterproofing range is imported and distributed by approved agents in Africa, Asia-Pacific, Australia, Mauritius and the Caribbean Islands.

Gurtex SG 338 *Spray-on waterproofing barrier*

Gurtex SG 338 is applied as a spray that combines two chemical compounds using a twin-nozzle spray machine. It provides full waterproofing and anti-corrosion coverage to surfaces that have irregular shapes, as well as surfaces with existing or new cracks.

Gurtex SG 378 *Brush-on waterproofing barrier*

Gurtex SG 378 is a white latex membrane applied by paintbrush or roller for waterproofing and anti-corrosion protection. It has superb adhesion and can be applied on a wide range of building materials.

Gurtex SG 368 *Brush-on interior & exterior waterproofing barrier*

Gurtex SG 368 is a single component high viscosity paste for application with a paintbrush or hand spray. Gurtex SG 368 is an ideal waterproofing solution for cellars, basements and parapet walls.
